TechCorp Product Roadmap 2025

Executive Summary

This document outlines TechCorp's product strategy for 2025. Our primary focus areas are the RAG Assistant platform, Data Analytics Dashboard, and the new Mobile App launch.

Q1 2025 — Foundation

Q1 focuses on infrastructure hardening and user research. Key deliverables: SSO integration, API rate limiting, and completing 50 customer discovery interviews.

Q2 2025 — RAG Assistant Launch

The RAG Assistant will enter closed beta in April and public launch in June. It supports PDF, Word, PowerPoint, CSV, and SQL data sources. Target metric: 1,000 active users by end of Q2.

Q3 2025 — Analytics Dashboard

The Analytics Dashboard will provide real-time KPI tracking, automated weekly reports, and anomaly detection powered by ML.
